

Requesting the PRC not approve N2021-1

Postmaster General DeJoy has submitted proposals to close post offices, extend the time for first class mail delivery, and raise rates, none of which will help people relying on the post office, nor attract more usage. Based on DeJoy's past behavior of slowing mail delivery while people were trying to mail their absentee ballots, destroying sorting machines, denying his conflicts of interest, and making political contributions that have led to his being investigated for "straw man" contributions, his proposals are not to be taken in good faith. I urge you to NOT APPROVE them. Furthermore, I urge you to remove DeJoy from his position.
